# PHAKANAWIN CHAIWEERA

## Profile

My name is Phakanawin Chaiweera, also known as Vincent. I am currently pursuing my first semester of a Bachelor's degree in Computer Engineering and Digital Technology at Chulalongkorn University. While my academic foundation covers areas such as digital systems and programming, I have developed a strong interest in Business Analysis and Business Development — particularly in applying analytical thinking and technology-driven insights to identify opportunities, optimize processes, and support strategic decision-making for businesses.

## Experience

2023
